WEBSITE SERVICES

We will take your vision and bring it to life with our Web Services Package! A business who had online presence have a massive impact on it's success. Majority of the customers will visit your business digitally rather than going to your shop that causes them a lot of time. "Time is GOLD".

Building a website for your business could potentially reach these unreachable customers. Your business might be local, but you might have the potential to sell your products or services to a wider market, whether it be people in the next town, the nation as a whole or even the international market.

Full-cycle website design and development

Creating a website from scratch, including requirements gathering, design, implementation, quality assurance as well as maintenance and support.

Web Application Development & Integration

Enriching your website with out-of-the-box and custom social networking apps, payment solutions, advanced analytics and other tools to increase user engagement.

Maintenance and Support

- Creating new features and fixing bugs;
- Enhancing scalability and performance to welcome the growing number of visitors and data;
- Improving the website structure to better address user demand;
- Increasing compliance with SEO standards for advanced content marketing strategies;
- Performing security audit and updates to protect data and users.

Redesign

Porting your legacy website, including all the data, to a new, modern solution (it can be another content management system) with a slick and responsive user interface.

Migration To Cloud

Moving your existing website and applications to Amazon Web Services (AWS), Microsoft Azure, Google Cloud Platform and other cloud services to improve scalability and administration and lessen costs

Mobile Driven Development

Adapting your website for mobile phones and tablets of all platforms and screen sizes as well as using the portal as a back-end for a mobile app.

We build the foundation of your online presence and ensures that your business stands out from the rest by using the robust technologies in the industry.

Interactive, media-rich and personalized to make your visitors stay always engaged
